FOR ATTENTION OF Mrs HANNAH BARKER and Mr KEITH MORGAN

Dear Sir / Madam ,

Further to our telephone conversation earlier this morning , regarding the above application , the context of which I obviously passed on to my client during the day .

Both he and I are unhappy that an application of this importance and impact , is apparently not being presented to the Planning Committee , for a decision .

My client has instructed me to contact you , to insist most strongly on this occasion , that this application be placed on the next 'Planning Committee Agenda' , forthwith , as it is considered 'again very strongly' , that this type of application is deserving and merits being dealt with formally by the planning committee , not just dealt with at officer level .

Would you please therefore put in hand the necessary action , to achieve this and place the above application on the agenda for the next Planning Committee Meeting , and let the committee make the decision .

Many thanks in anticipation of your cooperation on this matter .

Yours Faithfully

Gordon F Dixon
