Subject: Planning Application and Building Reg Query 3 North Road, Lancing

2nd Email No Response

Hi

Further to my telephone conversation, we have received a letter re a planning application for 3 North Road, Lancing, as change of use from office premises to a first floor flat. Whilst we have no objection in principle to a flat we would like to know if this conversation going to comply with all currant building reg's especially for the soundproofing and fire regs. Having sold this office space recently we know the condition of it and there is no soundproofing up there at the moment and walls have already been removed.
