PLANNING SERVICES

29th October 2018

Dear Ms Hearsey

Re: Planning Application AWDM/1397/18
18 Buckingham Avenue

Thank you for taking the time to visit me in respect of the above Planning Application.

After your visit I realised that I should have mentioned the fact that if the flat roof is to be raised all the way along flush with existing walls, by approximately 30cm, then will not be possible without disturbing the guttering on my garage. Can you please advise me how this problem will be addressed. It is probably in your interest to be aware that I believe the current line of part of the existing structure to be approximately 5 to 6cm over the property boundary.

Please could it be confirmed in writing to me the height that the flat roof is to be raised by and also that the structure on the north side is not actually being demolished but that it is just being built on top of. Finally can you assure me that the removal of the roof containing asbestos material has to be undertaken by a specialist contractor.

Thanking you very much for your assistance in this matter and I look forward to your reply. If you wish to speak about anything, before replying, please contact my Daughter (Isabel Forester) on [redacted]

Yours sincerely

[redacted]

Mrs E Forester
