Re: 38 Boundary Road, Lancing

We are in receipt of your letter dated 10th October 2017 and are not in agreement to the extension to the rear of this property going ahead. Ourselves and our neighbours at 41 George V Avenue will lose our privacy. We purchased our bungalows so that we would not be overlooked. In years to come there will be a shortage of bungalows because everyone seems to be adding in stairs!

We know that objecting to this proposed application is a waste of time and we do not know why you spend your time and the tax payers money sending out these letters because the planning officers who make the decisions are not personally affected by their decisions and they could not care less about other peoples views. A precedence has been set by the surrounding properties so this application will go ahead whatever we say.

If the people were to put velux windows at the back then at least they would be looking at the sky and not us. By putting in dormer windows this means that the people at 38 Boundary Road can not only look into our garden but when we are sitting in our lounge they will be able to see us. So we will be losing our privacy.

The neighbour at 36 Boundary Road who has a dormer window with a juliette balcony in the past took down the juliette balcony and was using his flat roof as a sitting area which he should not have been doing and could see into our lounge and also into our neighbours kitchen.

We would therefore respectfully ask that a dormer window is not allowed at the back of the bungalow when approving the plans.

Yours faithfully

Mr K and Mrs S Bedwell
39 George V Avenue
