Subject: Re: Planning Application Consultation for 5 Liverpool Terrace Worthing West Sussex
To: <planning@adur-worthing.gov.uk>

Thank you for your email to the National Amenity Society's casework inbox.

Due to a new security protocol, you may receive a bounceback email from this inbox. We are working on fixing this. In the meantime, please take this as confirmation that your email was received and is being actioned.

This is a point of contact for the C20 Society, the Council for British Archaeology, the Georgian Group, Historic Buildings and Places, the Society for the Protection of Ancient Buildings, the Victorian Society and the Gardens Trust. All planning consultations and notifications should be directed to this inbox.

This inbox is managed by the Council for British Archaeology on behalf of the amenity societies and monitored Monday-Thursday. If you have an enquiry for a specific organisation, please reference this in your email and it will be forwarded on.

Consultations on planning and LBC applications will be logged on our casework database casework.jcnas.org.uk within five working days and assigned to the relevant organisations. All non-confidential applications are publicly visible. You can search for specific cases, track amenity societies' interactions with and decisions on applications, and read the advice provided by caseworkers on this online platform.

Any substantive comments on applications by the national amenity societies will be sent directly to planning authorities using the contact information provided in the consultation document.

If your enquiry requires a reply from the central administration team, we will respond as soon as possible. Due to a large volume of incoming emails there can sometimes be a delay in this.

Please note that due to the short expiry time we are **unable** to process documents shared via WeTransfer.
