

Extension and Conversion
Rear of No.28 Bramber Road, Worthing, BN14 8QB.

There is very minimal existing planting on site.
The main planting is on the Southern Boundary and
should not be affected by construction or compaction
of soil.

There is a sycamore stump located on the central
North West boundary and this has some epicormic
growth.

The remainder of the garden is lawn. This will be
reinstated after construction with new grass seed.

All plant sizes and position are approximate.

-  Bamboo (Bambusa (species unknown))
-  Multiple Plum Trees (Prunus doemstica)
-  Hawthorn (Cretagus Monogyna)
-  Sycamore (stump with regrowth) (Acer pseudoplatanus)
