Try our VELUX Window Configurator

When a combination of traditional appearance, building regualations and aethestic appeal collide you can be assured that VELUX will offer the solution. VELUX Conservation roof windows and flashings have been designed to offer the technical abilities of the standard GGL Window along with the black finished external flashings ascertaining heritage.

In each VELUX GGL Conservation Kit you will receive the following components;

- GGL 2570 Centre pivot roof window with a black external finish
- EDP 2500 flashing kit for tiles up to 14mm thick
- Insulation collar and underfelt collar for a weathertight and energy efficient seal

Available in a range of sizes and a full complement of accessories, all VELUX windows come with pre-installed mounting brackets for VELUX
