15th March 2011

Dear Sir,

RE: SUNHILL COURT NURSING HOME – APPLICATION NO: WB/11/0150/FULL

I write in reference to the Planning Application for a first and ground floor extension at the above property, a development that I am strongly opposed to.

Again I would like to voice my concerns in relation to the extension and further development of this Nursing Home which is the only commercial property in what is largely a residential area.

I was told in a previous application that I could not have a set of gates as the road was essentially a country lane, so I find it hard to understand how this extremely large Nursing Home can be considered, in keeping with this semi rural location.

I feel that this extension is a negative impact on the area because the unmade road is already over used by delivery vehicles, continuous staff movements not to mention the visitors to the property who wish to see their relatives.

It is presumed that this extension will increase the number of patients "again" which will only exacerbate the situation.

The other somewhat overlooked fact is that in the summer months we already have to endure hours of wailing from the elderly and infirm who call for help continually, in their obviously distressed state. Having further residents at this location will only increase this disturbance which is again out of place with this semi rural location.

In view of this please accept this letter as my formal objection for the planning development of Sunhill Court.

Thank you for your consideration in this matter.

Yours faithfully

[redacted]

Shaun Miller
