Your Ref. ADC/0497/10 & 0498/10

My Ref. TM/S/10

28th January 2011.

Dear Mr. Hone,

Iron balustrading to roof terrace at Cambridge Lodge, Victoria Road, Shoreham, West Sussex.

I refer to the above and to our recent telephone conversation with particular reference to the details of the proposed coping stone, iron railings and fixings.

I enclose four copies of a drawing at 1:10 scale showing the new Portland Stone coping laid on the existing parapet wall, with balustrade above, and detailed by drawing and schedule is the manner of fixing.

I understand from the architect that the Building Regulations require a minimum height of 1.1m. to ensure safety which in this case does involve the use of the terrace by young children.

I trust that the above information is helpful.

Yours sincerely,

[redacted]

David Harris.
