Subject: ref: Planning Application ADC/0019/11 WSCC/003/11/SA

Dear Sirs

I am extremely disturbed by this application, especially as it seems to be retrospective as I gather that buildings have already been erected on site. How can it be acceptable to show disregard for the planning process by going ahead with work and thus putting pressure on the authority to give retrospective permission?

This development does not look like the temporary project which it claims to be, and would set an unnacceptable precedent if the company wishes to continue after the initial period on site. The building could be very long lasting indeed.

I don't believe that this is acceptable for residents on Brighton Road, who have not been acknowledged in the application. I will also be unacceptable for residents on the other side of the harbour.

The traffic effects on the A259 would also be extremely detrimental.

I don't believe that this application fits with the existing plans for development of the harbour area.

I sincerely hope that this application will be rejected. Thank you.

Kind regards

Gerry Thompson
