76, Salvington Road,
West Worthing,
West Sussex,
BN13 2JE.

15th August 2023

FOR THE ATTENTION OF DEVELOPMENT SECTION.
Ref; AWDM/1076/23

I am writing to register my objection to the above application. This site is opposite my house and garden which if approved will mean the loss of privacy and light to many rooms in my house, including a lounge and bedroom. I will also have no privacy in my garden. I won't want to be in the garden anymore and definitely won't use the pool which will have an adverse effect on my health. As I have high blood pressure the exercise everyday helps with this. My daughter and her friends won't want to be in the garden in their swimwear, knowing they will be watched.

I am very worried about the effect digging up this site will have on the Radon Gas as my health is poor now. Radon Gas can lead to health issues such as lung cancer which can result in death. 1100 people die each year from the effects of Radon Gas which, because it is odorless, colorless and tasteless, people don't know it is there and therefore, dangerous.

[redacted]

Another concern is more traffic, parking and safety issues, as this is a busy road, especially with the parents picking their children up from the school round the corner. Parking for the club is busy, parking for new flats that will be squashed into a tiny plot is a concern.

Yours sincerely,

[redacted]

K.S. Minnett
