**Address:** 32 hawkins road shoreham by sea

## Comments Details

**Commenter Type:** Neighbour

**Stance:** Customer objects to the Planning Application

**Reasons for comment:** - Privacy Light and Noise

**Comments:** I do not think it is reasonable for deliveries to be recieved out of normal operating hours, we in hawkins road live very close to the store and have a wide demographic of peolple for very old to new born babies. I do not want my children being woken up at 6am in the morning nor do I want them to struggle to get to sleep when they go to bed at 7pm. If my children get woken up early then so do I. My wife and I work very hard to live in this area and we need our sleep. Peaceful weekend evenings would be ruined by the banging and crashing of unloading lorries! This is a resedential area not an industrial estate. Even if they are planning to use non pneumatic wheeled devices, there will still be the sound of vehicles coming and going, the vehicle doors banging the sound of pump trucks being dragged, the tail lifts going up and down, reverse bleepers bleeping, the sound of bulk storage containers being moved, the noise of things being moved inside the trucks,

and the noise that people working creates. At 6am on a Sunday morning none of this is exeptable. Our lives have already been impacted by the noise of the out of ours construction work that is going on! I live a stones throw away as a crow fly's from the rear area of the store, where the deliveries will be done, I did not get sent the letter from the council asking what I thought about this application! some of my neighbours did, but not many. I think that every household that is going to have to listen to the noise should have been consulted, this is not acceptable and I feel the period to give opinion should be extendid and all residents of the lower end of hawkins road should be given the oppotunity to voice there concerns.
