Dear Ms Prew

WORTHING SOCIETY CONSULTATION RESPONSE

AWDM/0028/24 - FLAT 3, 112 MARINE PARADE, WORTHING, WEST SUSSEX BN11 3QG Replacement of front Bay windows

Thank you for requesting our comments on the above Planning Application. The Victorian building is located on the seafront within the Marine Parade and Hinterland Conservation Area and recorded on the Council's Local Interest List.

I have now had the opportunity to discuss the application with our Heritage Team. Although there is not much alteration proposed here, it does seem a shame not to take the opportunity to replace the casement windows with an improved design, ideally double-hung sash windows. In our view this would better complement the character of the building/

I hope this helpful.

Yours sincerely
