

Toastrack Cycle Rack

£155.00 Excluding VAT

£186.00 Inc VAT

If you're looking for a flexible bike storage solution, the modular design of the toastrack will be able to deliver. Ideally bolted onto concrete, it allows the frame and wheels to be locked securely to the rack. Toastracks will provide bike storage for your desired amount of cycles, offering secure and convenient facilities for end users at places such as:

- Offices and other workplaces
- Schools, colleges and universities
- Public parks and buildings
- Train stations

Description

If you're looking for a flexible bike storage solution, the modular design of the toastrack will be able to deliver. Ideally bolted onto concrete, it allows the frame and wheels to be locked securely to the rack. Toastracks will provide bike storage for your desired amount of cycles, offering secure and convenient facilities for end users at places such as:

- Offices and other workplaces
- Schools, colleges and universities
- Public parks and buildings
- Train stations

It's ideal for areas which experience high volumes of traffic, where you need to accommodate for numerous cyclists. The benefits of installing secure, aesthetically-pleasing bike storage solutions are multifaceted – including BREEAM compliance for your project, improved satisfaction for the end user and contribution to an enjoyable, well-organised space.

If these are benefits you'd like to enjoy, we carry toastracks in stock for fast delivery. Alternatively, you can contact us for quantity discounts and full service packages. With over eight years' industry-leading experience, The Bike Storage Company understand how important it is for commercial projects to deliver and remain competitive. That's why we offer the following services:

- Site surveys and layout consultation
- Delivery and installation
- Proactive maintenance plans
- Bespoke designs

Help break down the barriers to cycling and provide the necessary facilities today. Toastracks are an accessible, easy-to-use choice for all commercial projects.

M10 x 90mm coach screws are included for fixing into concrete.
