Your ref:

Tree Survey and Inspection

Tree (*Species*) T1 = Silver Birch	Age (*est*): T1 = 30yrs	Height: T1 = 7-8m

LOCATION (Site Address) 28 Church Street Shoreham

Proximity of other trees

Importance of tree to locality Conservation area Tree

REASON FOR REPORT
Request to crown reduce small sparse crowned tree in rear garden of property.

REMARKS / CONDITION:
Tree is in reasonable condition, the main crown is sparse with only a small frame work of branches. The tree is growing directly below a telephone distribution pole, with branches entangling into phone lines.

WORK / REQUIREMENTS;
The request is to reduce height by up to 2 meters or crown reduce up to 20%. This is presumably to avoid contact with the phone lines etc. Although the tree can be seen from the highway (Middle Street) reduction works would not significantly reduce its amenity contribution to the area.

Recommend above works be permitted.

TREE VALUE

A	Important tree worth saving	
B	Less important than above	✓
C	Suspect tree requires monitoring	
D	Dead or of no consequence
