Our neighbours Matthew and Olivia Unsworth have spoken with us about the rear extension. We have looked at the plans online and have discussed the project with them in person. We understand that they will be extending out very similarly to our own conservatory, and also similar to number 17.

We have no problems with their proposed project. We understand that they need more space as they have started a family and we are happy for the project to go ahead. We would like this letter to support them go ahead with their proposed extension.

Many thanks,
