Reasons for comment:	- Other
Comments:	Before being able to assess any impact from the proposed plans, it would be helpful to confirm that the building in question is indeed 139 Upper Shoreham Road. The plans submitted do not in anyway represent the current structure of the house and clearly fail to include the loft conversation which has changed the integrity of the roof. If the plans are for the house in question, it would be required for these to show the full extent of the proposed end project, and to include all other structural changes that have already occurred prior to any planning application. Please provide confirmation and revised drawings.
