Flag Status: Flagged

Good Morning Peter,

We have agreed on the following works to the boundary fence.

All the drawings submitted are still correct.
We are proposing to remove all the old chainlink and barbed wire to the rear fencing and on the access gates, remove all the broken concrete posts and replace with new ones matching existing, remove the airside access gates and install a new posts where required, to make the airside fencing a continuous run.
Install new green plastic coated galvanised wire chainlink with new barbed wire to the top, all as before, we wish to install a green plastic mesh netting to the inside of the fence, from ground level up to the top of the fence, approximately 2 meters high to add a degree of privacy and obscurity through the fencing.
Please see image supplied of proposed netting, (this is already on parts of the

existing fencing) but installed properly.

Regards
Tony Anderson
