FAO: James Appleton

Dear James,

Providing the fire hydrant indicated on the plan submitted for this site is in place, ready for use and West Sussex Fire & Rescue Service (WSFRS) are informed it is ready for operational use, the hydrant condition raised will be met and the condition discharged. Unfortunately, on too many occasions new housing estate dwelling houses are occupied prior to WSFRS being informed fire hydrants are ready for use, which then puts lives and properties at risk in the event of a fire.

Regards

Ian
