F.A.O.Finlay Gardner,

Further to my attempt to contact you by phone, I raise points concerning the above.

1) There isn't a proposed ground floor plan indicating as to whether the building line will be extended beyond the current ground floor building line illustrated. Can you confirm that it will not be extended?

2) This point isn't relevant to the project, however it does relate to your record of the accuracy of the property borders of 9 and 10 Plantation Way, which are shown to be equal in depth from the designated frontage of both properties. This isn't the case, the rear garden of my property No 10, is significantly shorter than No 9. Thought for your record's accuracy you should know that.

Regards

Keith F. Sargent
