Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Other - Privacy Light and Noise - Trees and Landscaping
Comments:	Bellway have already cut down so many trees in that area (completely destroying a much-needed wildlife corridor), including large willows, which will have soaked up a good deal of water. Flooding may well become a problem in this area, not forgetting the near underground Teville stream. Cutting down any more is likely to exacerbate flood issues in the area, as well as increasing noise pollution from the railway and roads and further destroying remaining wildlife habitats. Those 150 year old trees are a nesting site and must be preserved. No reason has been given for this request so it cannot be weighed against the further losses to wildlife, screening & to flood potential.
