Flag Status: Flagged

Hi Peter,

There will be no EH objections for this application on noise grounds.

Regards

Michael Lavender

Michael,

Please find attached our recently completed noise assessment. This should conclude everything required to complete our planning application (+extension), please confirm if otherwise.

I believe our extension is to the end of the month, I look forward to your repose and the subsequent application decision.

Liam AJ Williams

Good morning,

We have a noise assessment scheduled for w/c 08th February as requested and I will expect a report the following week, this will then be forwarded to yourselves.

Any questions please let me know.

Hi Liam,

I have attached a list of local consultants.

Regards

Michael

Dear Liam

There appears to have been a bit of miscommunication. The EHO is unable to visit as he is tied up with other work at the moment. In the meantime, please can you arrange for the noise report to be prepared and submitted as requested.

Thanks

I'm more than happy to accommodate this either today or Tomorrow between 08:00 and 15:00?

Dear Liam

I understand that your meeting with the Environmental Health Officer has not been able to take place for one reason or another.

He has advised me that this application should have been supported by a BS4142 noise assessment for the new plant.

He has stated:

"*The nearest property is about 25m away to the facade and 10m to the start of the garden. Looking at the noise data provided this appears to be affected by reflected noise from surrounding structures and is why we are not seeing the free field fall of 6dB per doubling of distance. We have 56dB(A) at 10m which is fairly high for outside amenity space. WHO guidance is 50dB(A) for good and 55dB(A) for reasonable. I do not know what the existing background noise level is or whether the fan noise has any tonal element or whether they have done everything reasonably practicable to minimise the noise from the extraction system?*"

I shall be grateful therefore if you would arrange for a noise assessment to be carried out and submitted as soon as possible.

A decision on this application is due by 21 January and I would therefore recommend that we agree to an extension of time to enable the noise report to be submitted and considered. Would you therefore please agree to an extension until 26 February?

Thanks
