I am writing to object in the strongest terms against this proposed development. The proposal is completely out of character for the area, which is wholly residential and isn't in response to public request, but purely a commercial opportunity. In addition, the applicant has been shown to ignore legal guidance and is not to be trusted to adhere to the rules. If any building here is permitted, he will push the rules and use it as a thin end of the wedge and try to use it for further development.

The whole application is totally unreasonable for such a quiet area, has no public call for such a facility and would be wholly unacceptable as it's effectively to create a mini holiday camp that there's not a demand for and for which the infrastructure does not exist. If you have overnight camping, then that will push the area, which is currently quiet into the realm of late night entertainment which will disturb local residents and the wildlife.

Please, please do not grant this application.
