Dear sir/madam

Proposed Overhill site development, Southwick

With reference to the above proposal, I wish to place on record my objection as a resident living on Downsway. The possibility of major flooding causing subsidence to properties in the vicinity is a real cause for concern. The existing horses fields already show evidence of flooding and the removal of greenery will in turn increase water runoff.

In addition, local school and hospital facilities will be put under further pressure by the additional population.

I trust that my appeal will be considered along those of other residents in the area.

Yours sincerely

Mr Mark Habibi
