Hi Jo,

sorry I did look at this last week
and got side tracked before I could
send
my response.

The ASHP's are in a better position
than before the final plant and
noise
levels have yet to be finalised but
this is covered in the acoustic
report.

[image: image.png]
Maybe the condition should be that
detail of any new plant and
associated
noise assessment shall be provided
and agreed with the local planning
authority prior to installation.

I would like to see MVHR ventilation
in the units facing East on Chapel
Road, as they will be subject to
music noise and the windows will need
to
be kept closed late at night over
weekend periods.

The sound insulation between the
commercial and residential will need
to be
conditioned. This is covered in the
acoustic report and can be

conditioned
based on the proposed future
commercial use. Maybe set the level
at 50
initially but 55 if background music
is proposed.

  [image: image.png]
KInd Regards

Michael
