DEVELOPMENT

For the attention of Chris Bartlett

Dear Mr Bartlett

RE: Sir Robert Woodard Acadamy-Lancing
Planning Application PP-0081 8671

Further to discussions held between Derek Kingaby and Technical Project Manager, Malcolm Mayo, we as applicants agent write formally to advise of changes to the off-site highways element of the application.

The changes, which have been discussed also with Keith Commins relate to non widening of Upper Boundstone Lane along its west boundary but merely leaving as is with existing car park lay by bays remaining , but incorporating single yellow line parking restriction along the east boundary. The school safety zone safety table and 20 mph restriction elements remain as our proposal.

Given that our solution to existing street parking relies on providing a substantial increase in 'on site' parking provisions we are satisfied the design as now proposed will meet your approval

Yours Sincerely
For and on behalf of Balfour Beatty Construction Limited

Gary Madelin
