Attn: Hannah Barker

Having received an application for an extension at our neighbours at 21 Southdown Rd, Shoreham we would like to register the following comments:

We have no essential problem with the proposed work bar two observations:
i) There must be no damage to the flint wall adjoining our properties, either during construction or afterwards through subsidence or similar deterioration.
ii) The proposed full length windows seem intrusive. Given the likely lack of vegetation between our properties following the building works, these windows will be close to our property and will give clear line of sight over the top of the wall. We'd prefer it if they were either removed from the plans, or kept below the level of the top of the wall.

Yours sincerely,
Chris Losh
(23 Southdown Rd)
