Dear Sirs

Without Prejudice

Your Ref: AWDM/0609/15
Removal of single storey side extension and construction of 2 storey side extension
81 Old Fort Road Shoreham by Sea West Sussex BN43 5HA

Further to the above application, we have viewed the plans on line and our understanding of them is that this extension would be built a meter away from the boundary wall. If the extension is to be up against the wall as is the single storey then we feel we would have to object not only on the grounds of invasion of privacy but loss of natural day light.

If the planned extension is a meter away from the boundary wall then the only observation that we would like you to take into consideration is the one of invading our privacy with the windows on the ground floor and top floor.

Could the plans be altered to consider no windows on the east side at all like the old extension that is already there, they could have windows at the front and back and in the roof instead.
If that is not acceptable could they be the same size and obscured as in the single storey extension.

Yours faithfully

Mr B Heath [redacted]

Mrs S Heath
