Address: 17 River Close, Shoreham-By-Sea, West Sussex BN43 5YF

Comments Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment:
- Design
- Highway Access and Parking
- Loss of General Amenity
- Overdevelopment
- Privacy Light and Noise
- Trees and Landscaping

Comments:

1. The design of the proposed development is significantly out of keeping with the other properties in the close and will detrimentally affect the overall attractivness of the close. The high perimiter wall in particular is out of keeping with the design of the rest of the houses.

2. Highways access and parking will be affected with driving into the close made more dangerous by restricted sightlines caused by this development, very concerning as young children play in the close, ride bikes etc. The loss of garages and increased need for on-street parking will affect the access road into the close, an already restricted area with current levels of on-street parking on that road.

3. Loss of the garden and land surrounding the current house will be overwhelming in a restricted space and affect the overall natire of the close, and will mean the children in No. 2 will need to play in the street, which will be made more dangerous by this development

4. The space is too small for a house, and the development would mean the loss of an important area of green space.

5. Privacy of the neighbours will be affected, as the back of the proposed house will directly overlook the other houses behind and adjacent.

6. A mature tree on the close will be lost.

7. There will considerable disruption and noise which will affect all those living in theclose, including moving of a main sewer that serves all homes in the close.

8. I would hope the council would oppose property developers trying to annexe every possible small area of green space and garden on Shoreham Beach, purely for profit, rather than to benefit an existing homeowner living in the close. Approving this development would set a damaging precedent for other developers looking to build over our small green spaces on Shoreham Beach, and in River Close in particular.
