PLANNING SERVICES

Dear Sir,

Re Extensions to 47 BARFIELD PARK

Due to the relaxing of building regulations the work already carried out on the above property has impinged on the daylight and sunlight to our kitchen and conservatory. This means the kitchen light is in use for a considerable part of the day.

We will be without so much daylight to our bathroom, toilet and front bedroom if a front dormer is permitted. A rear extension will cause further loss of sunlight to our conservatory and garden, which is already in more shade from the rear dormer. This also causes loss of privacy.

On these grounds we object to the proposed plans.
