Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	- Other
Comments:	I'm not directly against the proposal and welcome improvements in the are that benefit our general housing needs, how ever I have concerns about the dust that will be generated in this development. I'm directly opposite the proposed area running a food production site, My largest concern is my exterior refrigeration condenser as essive dust and related contaminants

in the air will result in them not cooling correctly or running efficiently as the filter become blocked.
I would like to know how this will be managed and what can be done if the site dose cause issues to my business as a result of my concerns.

Kind regards
