I am writing with regard to the proposed construction of a large sandpit for children with associated gazebo constructions for both the sandpit and also the provision of food and refreshments on the land on the South East corner of Amberley Drive, Marine Drive in Worthing, West Sussex.

My objection to this proposal is based on my concern for the safety in the area, this is already a very congested area, especially in the high summer.

Visitors already enjoy a natural sandpit and play area at the beach and the Greensward, without the necessity to cross a very busy road with constant traffic.

This will also put a considerable strain on the already difficult parking in the area as well as adding pollution from additional traffic

I do hope that my concerns are taken into consideration when the final decision is made
