G. CHOICE OF PROCEDURE

There are three different procedures that the appeal could follow. Please select one.

1. Written Representations ☐

2. Hearing ☐

3. Inquiry ☑

You must give detailed reasons below or in a separate document why you think an inquiry is necessary. The reasons are set out in

☑ the box below

The Statement of Case outlines the Appellant's case in lodging this appeal, including summaries of specialist matters relating to the above reasons for refusal. Due to the complexity of the matters raised, we consider that it will be necessary to consider this appeal at a public inquiry.

Planning matters, including the appropriate weight to be attributed to different policies, the application of the presumption in favour of sustainable development, and proper balance of planning considerations, will require cross-examination. This is particularly important as the application has been refused contrary to the advice of Officers, and there will be a need to cross-examine whoever will be the Council's representative, to properly and fairly understand the rationale behind their new position, which is otherwise wholly unexplained. This is important not only for this appeal, but also for ongoing decisions within the Borough, in the face of a pressing need to boost the supply of homes, and the Council's refusal of both this and other proposals on allocated sites.

For the first reason for refusal, there is a need to properly examine the height, scale and composition of the buildings, and to properly scrutinise the relationship with adjoining buildings and the local area, to understand whether there would be compliance or otherwise with the relevant local and national policies. It will also be necessary to undertake an appropriate forensic and technical examination of existing and proposed parking demand. In the circumstances of this case it will not be capable of being undertaken with adequate and necessary clarity other than under cross-examination. It will also be necessary to examine the provision of open space within the site, and through the s106 agreement, and scrutinise the Council's position on how these matters should otherwise be addressed. These matters will require cross-examination, in order to appropriately and properly test the evidence and judgements which inform each side's position.

None of these matters are suitable for a written-only procedure, nor for a round-table process.

The Application raised a significant level of public interest. The Council's Committee Report noted that the Council received a total of 153 comments in relation to the planning application. Accordingly, the Appellant considers that the most appropriate appeal procedure is for a public inquiry to be held.

We also consider that it will be necessary to present further evidence in due course, in the form of Proofs of Evidence. The Statement of Case has been prepared in this expectation.

(a) How many witnesses do you intend to call? 4

(b) How long do they need to give their evidence?

Housing land supply - 1 days
Transport - 0.5 days
Townscape and visual impact - 0.5 days
Planning - 0.5 days

(c) How long do you estimate the inquiry will last? 5 day(s)

(d) Is there any further information relevant to the inquiry which you need to tell us about?

The Appellant intends to advertise some minor amendments to the proposed floor plans and elevations. This follows a late consultation objection from the Health and Safety Executive (HSE), following the Council's determination of the application. In order to address this objection it is necessary to provide separate stair and lift access from the basement to ground floor level to those which would serve the remainder of each building. These changes have been discussed with Adur Council's Planning Officers, who have not raised any objection to the proposed amendments.

The Appellant understands the need for the amended drawings to be subject to public consultation. In accordance with the Planning Inspectorate's guidance, the details of this consultation will be agreed with the Case Officer prior to it taking place.
