Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: I would like to support this application. The rink provides a wonderful amenity for the local community at no cost to the council. I am over 60 and use it regularly at least once a week. It offers very good value for money and I love to see people of all ages enjoying the exercise and fun of skating. It makes good use of an empty warehouse offering excellent value for money and is run well. I have made new friends and would be very sad to lose this facility. There are always people there having fun. We need to mainting sporting facilities that the young can afford. I hope that you will vote in favour of this application.
