valarie

as discussed here's the information you need for the freeholders consent. as the proposed structure encroaches on the flat above and to a much lesser degree the flats to the side i have ask for consent for these properties as well as number 26. be assured the leaseholder of number 28 flat above the site has been consulted in this same manor separately.

please send on the plans, design statement and article 6 form to the relevant department. the job has been submitted to the planners today and the reference number is pp-01235740.

many thanks for your help.

regards
