Dear Ms Haslett,

Re the proposed one and a half storey extension, I repeat my previous arguments – see my letter dated 12/8/24.

The S/W corner of my garage roof will need to be reinforced at No 20's expense.

Roots of existing trees will be damaged and could affect the screening provided at present.

In addition, the existing boundary fence is only 5' high. It should be replaced at a height of 6', due to the close proximity of the new footpath at the side of No 20.

Yours faithfully,

[redacted]
