Elegant Chamfered Finish

High performing 70mm suite

Esteem

VALENTIS ESTEEM FEATURES A CLASSIC DESIGN, with the highest standards of security, energy efficiency and aesthetics. Multipoint locks and internal beading make this range fully secure.

These beautifully engineered windows and doors are a world apart from the uPVC products of years ago. Designed to reflect the aesthetic appeal of traditional timber, these frames will really enhance and complement your home. Engineered from colourfast uPVC profiles, and tested to the most extreme weather conditions, Valentis Esteem requires minimal maintenance.

Superior insulation ensures heat loss and energy is reduced so your home stays warmer, cutting your heating costs and reducing harmful emissions.

Valentis Esteem won't rot, warp, twist or require painting and with a range of colour options available, you are sure to find an ideal match for your requirements.
