Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	Being the neighbour this will affect most I feel these comments are necessary. I appreciate the obscured glass addition to what was originally one set of windows. Now there are two sets of windows which create even more of a overlooking issue into our garden. The extremely small bit of privacy we would have near our fence with the previous plans has now been taken away from us. A change made to the design and/or opening of the windows would be acceptable. Ensuring these do not open enough for us to be overlooked along with the planned obscured glass would be sufficient. The roof light height, shape and opening need to be investigated as this could breech our privacy in our bathroom. Please conduct a site visit to my property where I will happily show you the issues I am raising

in my comment.
We have a young child and we are entitled to privacy on our property, family life inside and outside of our home where we are not extremely overlooked by any means.

Kind regards
