Comments:	hi elaine As discussed I withdraw my offer of negotiation over the boundary, the development must not encroach over the boundary. So that a gutter brackets and facia board which would mean the wall moving away from no 23 be around 120mm at least. I will forward photos to the panning email separately. the other thing that worries me is we are talking about putting a dormer on the rear and if the roof is glass then this could be blocked on the grounds that we could see into no 21? would that be correct Regards Clive attwood
