ADUR DISTRICT CONSERVATION ADVISORY GROUP

MINUTES

of an email consultation carried out during week ending 1st May, 2015.

Participants: Messrs. D. Donaldson, J. Leigh & R. Richards, Mrs. B. Ferrers-Guy

The following applications were unanimously approved:-

AWDM/0006/15 AWDM/0521/15 AWDM/0501/15 AWDM/0441/15*

* NB - although it was reluctantly agreed to approve this retrospective application members feel, in view of the number of objections raised by neighbouring residents in regard particularly to overlooking, a condition should be imposed whereby the glazing of the kitchen window should be opaque, i.e. autumn leaves, etc.

AWDM/0379/15 – in view of the objection raised by Sompting P.C. members feel that this application should be referred back to the applicant for further negotiation with the planning officer as opposed to being refused outright. The strategic gaps within the Adur District have always been protected by the district planners & should continue to enjoy such protection. In this instance, where the actual annexe is located could possibly at some future date be extended to form a separate residence & impinge on the strategic gap.
