Comments: Ball Tree Surgery supports the development as this is a direct investment in the wellbeing of our local population. We have been referring patients to the project via the Adur and Worthing Going Local Project and there are direct benefits. The facilities proposed will provide additional welcome resource for our patients to be supported by a wide range of offerings that will address many needs relating to health, mental health, nutrition, physical movement and wellbeing. We would be keen to be able to refer more of our local community to be able to participate in supported activities that the development would enable.
