Address:	31 Westlake Gardens Tarring Worthing

Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Other - Overdevelopment
Comments:	I wish to oppose this planning application due to the level of pollution it will create and that we should be reducing our energy consumption not ever increasing our production of electricity. We should learn to consume less energy through increased insulation, reduced wastage and generate electricty in sustainable ways. The burning of oil will cause much pollution which will effect the health of the local population. Adur and Worthing Councils should be taking action to improve our health and help reduce the levels of illness amongst the local population. This development, once built, will create few new jobs as the electricity generation will be automated. This application should be turned down.
