Dear Sir,

Your Ref: AWDM/0523/18
1 no. three bedroom three storey dwelling with second floor balconies to side and rear attached to south west side elevation of existing dwelling
29 Kings Crescent Shoreham-by-sea west sussex BN43 5LE

I am writing in objection to the above proposed development by my immediate neighbours.

I have lived in my property for the past 26 years and bought it due to its light and airy position, being at the end of a terrace, and for the fact no. 29 was a good distance from me with garages separating the two properties.

The proposed development showing two balconies, one to the side and one to the rear, would clearly cause me severe loss of privacy and light, plus they would directly overlook the front and rear of my property! I am heartbroken at the suggestion of this possible development and I would be more than happy for anyone from the Council to come and look at the impact it would cause to my home, both internally and externally! I love my garden as it is my personal green sanctuary and I thoroughly enjoy pottering. This proposed development would impact on me greatly, as I would become hemmed in and be constantly overlooked on all sides.

I would add I have always got on well with my neighbours and was extremely distressed to receive this notification in the post without any prior notice of intent from my neighbours at no. 29.

Yours faithfully
