Comments Details

Commenter Type: Neighbour

Stance: Customer made comments neither objecting to or supporting the Planning Application

Reasons for comment:
- Design
- Privacy Light and Noise
- Trees and Landscaping

Comments: The proposed gables at each end are very prominent and with the extent of the rear dormer windows will result in loss of light to my rear patio. To reduce the prominence I would request small hip ends be provided, this will reduce the extent of the rear dormers and provide less loss of light to my rear patio. Many thanks for your consideration of my request.
