| **Commenter Type:** | Neighbour |
| **Stance:** | Customer objects to the Planning Application |
| **Reasons for comment:** | - Privacy Light and Noise |
| **Comments:** | We are concerned that seeing as our property is of a higher elevation and the north facing side of the structure is mostly made of glass we will be able to clearly see into the structure, in particular when lights are on. Conversely anyone in the structure will be able to see clearly into our property so therefore our privacy would be compromised.<br>We have spoken to Mr Morris explaining this, requesting that a higher boundary fence to the east side of the proposed structure is built, matching the height of their recently erected pergola, to alleviate this problem.<br>Providing this is done we would have no objection. |
