To Planning @ Adur-Worthing

I would like to object to the planning application outlined below:

'Proposed timber-clad tractor barn, providing secure storage for two tractors, grass-cutting machinery and equipment used to maintain the land. The building includes a rear storage mezzanine, pitched metal roof with solar panels on both slopes, front barn doors and a west-side pedestrian entrance, positioned along the northern perimeter of the site.'|Land South East Corner Of Amberley Drive Marine Drive Worthing West Sussex

This application is a totally inappropriate building being proposed to be placed on this land. This land and the surrounding area of Goring Gap deserves to be not only cared for, but to be kept in its natural state for the benefit of all visitors to the area, locals and of course the amazing & diverse wildlife & habitat.

I believe that a building of any size on this site would completely ruin this land and the open aspect of land down to the sea would be gone forever. A unique and beautiful part of the world.

I also believe that the approval of any building, of any kind, on this land should never happen & could be a pre-curser to further applications of similar nature which myself and many others object to strongly.

Please let me know if you require any further information from me.

Thanks & kind regards

Elizabeth Perry
