Subject: Objection to Planning Application AWD/0737/26

To: planning@adur-worthing.gov.uk <planning@adur-worthing.gov.uk>

Hi

I am somewhat incredulous that this planning is being submitted yet again having been previously been so thoroughly rejected previously, wasting yet more council time and money.

I repeat my objections to this application for the following reasons

1, This is a area a 'green land' which it has already been decided so many time should remain an open space, I believe the applicant is merely trying a 'back door' to planning being granted to allow for further development

2, why do you need a sand pit when there is a beach 20 years away

3, this is already a busy road, with lots of parked cars and there will be a severe risk of a child being injured running out into the road. If I was the applicant that is not something I would want on conscience, but I suspect money is more of a focus that chidrens safety

4, While I accept the issue of parental supervision if refreshments and in particular drinks are being provided it likely those parents will become distracted. See my point above

5, I would be concerned about the welfare of any animals on the site, both in terms of their safety and their treatment by being used 'entertainment'. I thought as a society we have moved beyond "donkey rides and performing monkeys"

6, one of the last reasons that the last application was thrown out was the lack of adequate services and I dont see those provisions have changed

7, This is close to a residential area which is already affected by parking issues at busy times, this will make that worse

8, in view of the applicants obvious disregard for the wishes of the local community how do we know he will apply with any time limits on activities at the site, or will the council have to commit yet more resources to police that?

9, This is already an area blighted by traveller visits and such a site will make those more likely which will involve the local resident in yet more disturbance and the council in yet more expense

10, I note that many of the items listed are already onsite and surely such blatant disregard for the planning process shouldnt go unnoted

Please confirm receipt of this email and that my objections will be taken into account

Ken Ozanne
