Dear Mr Shepherd,

Re: New conservatory with Ultraframe Living Room roof

Further to our recent conversation, and as requested, I have pleasure in submitting my quotation for a conservatory to the designs shown on the enclosed drawings. My quotation includes the following:-

- Install conservatory onto base and walls by others
- Trim back existing roof to install box gutter
- Utraframe roof with active blue glass
- Livin Room internal pelmet
- External Cornice
- Two opening roof windows
- A rated glazing
- Plaster internal ceiling fromrd by the pelmet.

Roof structures are fabricated using the *Ultrafame* roofing system. This system is acknowledged throughout the industry as being of the highest quality and is now exported to many countries. It has a trickle ventilated ridge to reduce heat build up and incorporates aluminium reinforced PVCU ring beams, ridge beams, plates, glazing bars etc; roofs are glazed with 1.1 U value blue active sealed units.

Vika conservatory framework to be glazed with Pilkington energiKare A rate sealed units. The door will be fitted with our high security locking system

TO: Survey site and custom manufacture new conservatory to the above specification to be installed onto base and walls by others

Total price inclusive of VAT £14460.00

Our terms of business require a 50% deposit with order, and further payments on the installation of the conservatory, the balance being due on satisfactory completion of the installation.

Commencement of work will be 4-6 weeks from date of order unless you specify otherwise.

I hope the above quotation meets with your approval, should you require any further information please do not hesitate to contact me.

Yours sincerely

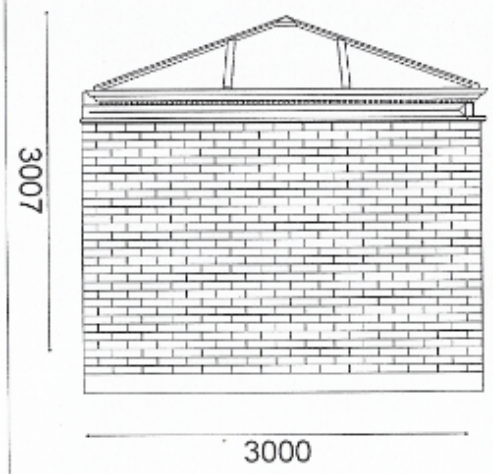

Stuart Wallace

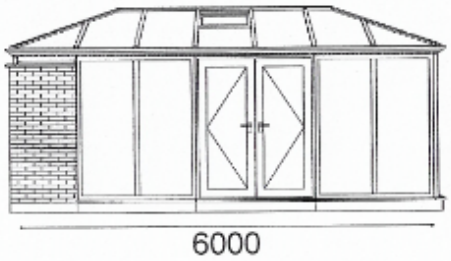

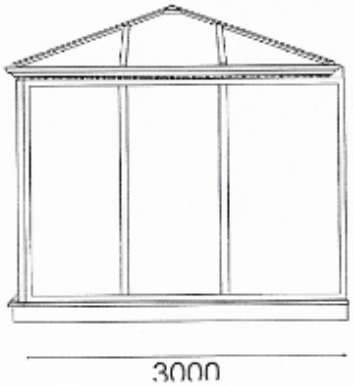

Internal pelmet plastered

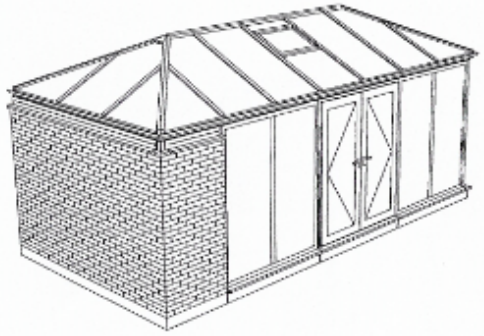

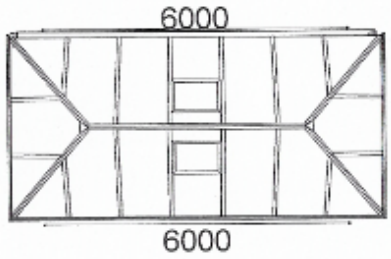

External cornice to hide gutter and pelmet
