Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Other
Comments:	The current plans show the footbridge where it is currently but when this has been re-built, which is starting in the next few months, will the positioning of this slip way not impact on the safety of pedestrians as they walk off the bridge. The slipway will obviously increase the amount of traffic in this area so will adequate provisions be made to protect pedestrians. This area is also, Ibelieve, a SSSI which such a large structure will damage.
