This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals.

This application seeks the approval of details reserved by Conditions 3, 7 and 7 of previously approved application AWDM/2135/21. WSCC in its role as Local Highway Authority (LHA) provided consultation advice for application AWDM/2135/21, raising no highway safety concerns.

Condition 3 – Materials and Finishes
No highway comments.

Condition 6 – Noise Protection
No highway comments.

Condition 7 – Construction Management Plan
Condition 7 is as follows:

"No development shall take place, including any works of demolition, until a Construction Method Statement has been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved Method Statement and shall be adhered to throughout the construction period. The Statement shall provide for:-

i. the parking of vehicles of site operatives and visitors;
ii. loading and unloading of plant and materials;
iii. storage of plant and materials used in constructing the development;
iv. the erection and maintenance of security hoarding;
v. wheel-washing facilities;
vi. measures to control the emission of dust and dirt during construction; and
vii. a scheme for recycling/disposing of waste resulting from demolition and construction works."

The applicant has submitted an amended Construction Management Plan (CMP), with Site Set-Up Plan. The plan demonstrates the location of on-site storage of materials and waste, heras fencing and scaffolding. Parking will take place on-street, although the

majority of contractors will be transported to the site in communal vehicles. Loading/unloading will take place from the roadside on Brighton Road. Wheel washing facilities will also be available on site.

In summary, the LHA is satisfied with the details included within the amended CMP and Site Set-Up plan.
